

ATHER LABS — WEBSITE DEVELOPMENT

7

Website Type	Price
Landing Page	₹3,000 – ₹7,000
Professional Landing Page	₹5,000 – ₹10,000
Basic Business Website	₹5,000 – ₹10,000
Medium Professional Website	₹10,000 – ₹25,000

Advanced Business Website	₹20,000 – ₹40,000
Premium 3D / Parallax Website	₹25,000 – ₹50,000+
High-End Custom Website	₹40,000 – ₹75,000+
E-commerce / Custom Web Platform	₹25,000 – ₹1,00,000+

The market is extremely broad: current 2026 guides place freelancer landing pages roughly around ₹3,000–₹10,000 and business sites around ₹8,000–₹50,000, while agencies can charge substantially more.

Website packages can include:

- Responsive design
- Mobile + desktop optimization
- Custom UI/UX
- SEO-ready structure
- Contact forms
- WhatsApp integration
- Analytics integration
- Social media integration
- Basic security setup
- Performance optimization
- Deployment

Ather Labs Hosting Benefit

1 year FREE domain + hosting included on eligible website packages.

For premium projects:

- Premium domain where required
- Premium hosting
- Long-term technical support

- Future updates/maintenance handled by Ather Labs

Important: Third-party costs such as premium plugins, paid APIs, specialized services or unusually expensive infrastructure may be quoted separately if required.

ATHER LABS — APP DEVELOPMENT

App Type	Starting Price
Basic Utility App	₹10,000 – ₹20,000
Basic Business App	₹15,000 – ₹30,000
Medium Functional App	₹30,000 – ₹60,000
Advanced App	₹60,000 – ₹1,00,000+
Complex / Custom App	₹1,00,000+

Possible features:

- User login/signup
- Database
- User profiles
- Push notifications
- Admin panel
- Payments
- APIs
- Maps/location
- Chat
- Booking systems
- Dashboard
- Cloud backend
- Play Store deployment

Google Play

You can include **Play Store setup/deployment assistance** in your package.

I would **not** advertise "all Google charges included forever" because third-party platform fees can change and some services have recurring costs. Current market guides also treat store fees and maintenance as separate considerations.

Instead say:

Play Store deployment and required setup assistance included. Third-party recurring/service fees, if applicable, will be disclosed before development.

That protects you from unexpected costs.

 ATHER LABS — AI DEVELOPMENT

AI should be **"starting from" pricing**, because scope can change massively.

AI Solution	Starting Price
Basic AI Integration	₹10,000 – ₹20,000
AI Content / Task Automation	₹15,000 – ₹30,000
AI Chatbot	₹20,000 – ₹50,000+
AI Business Assistant	₹30,000 – ₹75,000+
Custom AI Automation	₹40,000 – ₹1,00,000+
Advanced AI Agent / Custom System	₹1,00,000+

AI services can include:

- AI chatbot
- AI automation
- AI content generation
- AI customer support
- AI lead qualification
- AI document processing
- AI-powered websites/apps
- API integrations

- Custom AI workflows
- AI agents

AI pricing varies enormously in the Indian market because a simple API integration and a production AI system with RAG, integrations and guardrails are fundamentally different projects.

Third-party AI API/model usage is charged according to actual provider usage unless specifically included in the project quotation.
